Policy

This privacy policy (hereafter referred to as the “Privacy Policy”) is applicable to our web and mobile Knowledge applications and other offered content, websites and any related services (including servers, software and infrastructure) (hereinafter the “Service”). Hereinafter bazaargame.com and its affiliated companies will be referred to as “Bazaargame”. Bazaargame may use affiliates’ or reputable third parties’ services for the processing of personal data collected on or through the Websites. By using or accessing our Service, you are accepting the practices described in this Privacy Policy.

1. About Our Service

1.1 Our Service offers a current, and exciting knowledge tool.

2. The Information We Collect

The information that our Service collect includes (among others) the following:

a) IP address, Cookies, and Web Beacons

2.1 When you visit and use our service, our servers automatically save your computer’s IP address. IP addresses will be collected, along with information about the actual web pages that you visit via the Service. If you arrive at the Service via a link from another website, the URL of the linking website and the URL of any website that you link to next will also be collected.

2.2 In addition, we store certain information from your browser, using “cookies.” A cookie is a piece of data stored on the user’s computer and is tied to information about the user. Bazaargame may use cookies, web beacons (web bugs), or similar technologies to enhance and personalize your experience on the Service, including the following:

(a) to operate and improve offerings of the Service;
(b) to help authenticate you when you are using the Service;
(c) to remember your preferences and registration information, as applicable;
(d) to present and help measure and research the effectiveness of Bazaargame offerings, advertisements, and email communications; and
(e) to customize the content and advertisements provided to you through the Service.

2.3 Bazaargame may also use ad network providers to help present advertisements on the Service. These ad network providers use cookies, web beacons, or similar technologies to help the presenting, better targeting, and measuring of the effectiveness of their advertisements, using data gathered over time and across their networks of web pages to determine or predict the characteristics and preferences of their audiences. Bazaargame offers some services in connection with other websites. Personal
information that you provide to those sites may be sent to Bazaargame in order to deliver these
services. Bazaargame processes such information in accordance with this Privacy Policy.

2.4 Bazaargame may also use third-party payment service providers ("PSP"), offering payment
transaction services to Bazaargame in order to sell a product or service through the Service. Whenever
you buy something from the Services (e.g., a virtual game item or a subscription for a game download),
the information that you provide to the PSP is subject to their privacy policies, not ours. You explicitly
consent that Bazaargame may provide personal information collected from you to a PSP for the purpose
of the offering of the payment-transaction service whenever you buy something via the Service and that
such PSP may use such data for (statistical) analysis of payment transactions. Bazaargame shall be
allowed to notify a PSP regarding a user that engages in (or who a party believes has engaged in) any
activity that is illegal, that violates any person’s rights, or that led to such user’s suspension or
termination of use of the Service.

2.5 Bazaargame may share demographic information (certain anonymous information about you as a
user, such as age and country) with certain ad network providers to help them deliver more relevant
advertisements through their ad networks. The use of cookies, web beacons, or similar technologies by
such third parties as ad network providers is subject to their own privacy policies, not this Privacy Policy.

2.6 Most browsers are initially set to accept cookies, but you can (re)set your browser to refuse all
cookies or to indicate when a cookie is being sent. You can opt out of receiving cookies from certain
third-party advertising networks by resetting your browser. However, some features and services may
not function properly if cookies are disabled.
